ABOUT SAMA

ENGINEERING EXCELLENCE IN STAINLESS STEEL SINCE 1996

For three decades, SAMA Industrial Solutions has been a trusted partner in high-performance stainless-steel fabrication. Driven by our signature **Bear System** standard, we deliver standard and customized engineering solutions that combine durability, strict hygiene compliance, and operational efficiency.

From high-capacity commercial kitchens to heavy-duty medical facilities, our products are precision-built to withstand the demanding environments of modern industries. We transform premium-grade stainless steel into reliable, long-lasting infrastructure you can depend on.

HEAVY-DUTY CULINARY STATIONS

RESTAURANT SOLUTIONS

Designed for high-volume commercial environments, our restaurant setups prioritize workflow efficiency and intense durability. Featuring heavy-gauge stainless steel preparation tables, industrial exhaust hoods, specialized rotisserie and grill stations, and optimized food-prep counters. Every unit is engineered for seamless cleanability, meeting rigid food safety standards while maximizing workspace productivity.

02

STERILE & HIGH-SANITATION SYSTEMS

MEDICAL SOLUTIONS

Engineered for medical environments where hygiene and cleanability are absolute priorities. Our medical lineup includes seamless scrub sinks, heavy-duty mobile service trolleys, custom instrument tables, and secure storage cabinets. Crafted from top-tier, corrosion-resistant alloys, these solutions withstand aggressive sanitization protocols and ensure complete clinical integrity.
